

The FCC should not implement ANY proposal that will lessen Indiana's Telephone Privacy law protections. Since having our phone numbers listed on the "no call list" there has been blissful peace in our home. No more disturbing calls from solitors. We used to receive several calls per week, usually around the dinner hour. Now we receive at most one per month.

Indiana's law returned our privacy to us and prohibits businesses from disturbing our lifestyle trying to "sell us" something. Solitors are free to use the US Mail to attempt to reach us with their sales pitch. This gives us the CHOICE of WHEN and IF we CHOOSE to learn of their offers. Thank you in advance for continuing to protect my rights to privacy.

Sincerely,

Jane O'Bryan
